FOR IMMEDIATE RELEASE:

## Copolyte Launches Copylite Brand Toner Cartridges for Use in Lexmark® Printers

**Fort Lauderdale, Florida [March 18, 2021]** – Copylite is proud to announce the launch of their new line of products, Copylite Brand toner cartridges for use in Lexmark® printers. These cartridges are expertly produced in US-based ISO-certified facilities, GSA approved, and provide the same number of pages as their OEM equivalent model counterparts.

Designed to fit a wide range of popular Lexmark® models, these Copylite Brand cartridges are made with 100% premium Japanese toner, offer a low toner melt point, and contain engineered chips that ensure device compatibility and exceptional output quality. Additionally, they are firmware upgrade resistant and equipped with Managed Print Services (MPS)-ready chips to optimize uptime and streamline workflows for end-users. Copylite Brand cartridges provide substantial savings for any business or vertical market, from legal to medical to financial and more, are ideal for label printing, and can be used daily for all applications.

Marc Spring, Copylite CEO, states, “We are thrilled to bring Copylite Brand toner for use in Lexmark® printers to our customers. I am incredibly proud of my team for putting so much time and energy into the research, development, and post-production testing of these cartridges to produce final products that yield amazing results at affordable price points.”

Copolyte Brand toner cartridges for use in Lexmark® printers are now available in all three of their distribution centers for wholesale purchase to Copylite members through their secure website. For more information about this new line of products, please visit [www.copylite.com](http://www.copylite.com).
